Over 400 downloads of the database health reports.

Today, the Database Health Reports had its 400th download. I would like to say thank you to everyone who is using the product, and an extra thank you to those who have provided me with feedback.

Here is a history of the Database Health Report project, http://databasehealth.com/about.

My Goal: I would like to provide the Database Health Reports project for free to as many people as I possibly can for as long as I can. One day I am sure that it will require more of a support team, and more developers, but as long as I can do this for FREE with just me working on it I will continue to do that.

Download

If you haven't tried out the Database Health Reports project you can get it from the FREE download page.

I am currently working on Beta 6. Currently Beta 5 is out in the wild and going well.

Thanks!!!

Thanks everyone for using the Database Health Reports project!
