Thanksgiving Special 60% off SQL Server Backup and Restore

Happy Thanksgiving to all those who celebrate. Todays coupon code is BACK60

As black Friday approaches, we are kicking things off with another great class promotion. My goal is to sell as many classes as I can this month at the lowest price we will set them at all year long.

If you are thinking about singing up for one of these classes next month or the month after, signing up now will save you some money. Specifically, 60% off today on the Backup and Recovery course.

This complete course will help you determine if you have a sufficient backup strategy and restore plan OR will help you build one from scratch.

Plan to recover from fires, floods, ransomware, and many other disaster scenarios.

In this course we dive into real life stories, RTO and RPO lesson with examples, what might you need to restore from, types of backups, configuring backups with maintenance plans, restoring from backups, ransomware considerations, building restore script and other backup tools.

Here is the direct link to the class using the coupon code, valid through end of day November 24th. Get our backup and recovery class for just $15.98 with this deal.
