Exclusive SQL Server Replication Training Session

Join Steve Stedman for an exclusive online presentation on SQL Server replication techniques on April 24th at 10:30 AM Pacific Time. This special session will delve into the fundamentals of Transactional Replication, Merge Replication, and Snapshot Replication, providing attendees with a solid understanding of each method and its applications.

This unique opportunity is limited to just 15 participants to ensure a focused and interactive experience. During this free session, attendees will not only gain valuable insights from a seasoned SQL Server expert with over three decades of experience but will also be eligible for a free giveaway and a significant 50% discount on the upcoming new class specifically on SQL Server Replication offered through Stedman's SQL School.

The presentation will conclude with a Q&A session, allowing you to ask specific questions and get personalized advice on SQL Server replication. Whether you're new to replication or looking to refine your skills, this session is designed to provide you with the knowledge you need to effectively manage and implement replication solutions.

Don't miss out on this educational and rewarding experience! Reserve your spot today and take the first step towards mastering SQL Server replication. For registration and more information, visit https://stedmansolutions.ck.page/96e6852041
