Blocked Queries

Using our instruction and scripts included, you will successfully configure email notifications when blocking occurs.

With your new SQL Blocking Query email notification, you are notified about those blocking queries as they happen giving you time to address the situation.

Picture This Scenario

Your SQL Server runs into blocking but you don’t find out until it is too late. Your server gets to the point where it is so backlogged on the blocking that you end up rebooting or restarting the SQL Server.

With your new SQL Server Blocking Query email notification, you are notified about those blocking queries as they happen giving you time to address the situation.
