Next Weekly Free SQL Training: A Review

We are currently about 25% of the way through the SQL Server 70-461 exam preparation class, which has been available through Google On Air Broadcasts every Thursday at 9:00am Pacific time.

To celebrate the 25% mark, and to strengthen the training we have decided to do a review session on everything that we have covered so far.

- Null
- Expressions
- Identity
- Aggregation
- Top, Ranking and Aggregation
- OUTPUT Clause
- Derived Tables
- MERGE Statement
- Set Operators
- Derived Tables
- Common Table Expressions
- Recursive Queries

You can watch via Google On Air Broadcasts at this url:
