Set Operators, Derived Tables and CTEs - Presentation downloads

Here is the agenda for this weeks free SQL training covering Set Operators, Derived Tables and CTEs - Presentation to prepare for the 70-461 exam:

- —Set Operators
- —Derived Tables
- —Common Table Expressions

This session is presented by Aaron Buma and myself.

Here is a quick overview of the slides:

Set operators - derived tables and CTEs from Steve Stedman

This is the entire session recorded on YouTube:

Here are the TSQL files and the presentation if you would like to download it.
