# Today's Live Training: Using Cursors and TSQL String Functions

Here is the outline:

- Using Cursors
- Using String Functions

Here is the link to the Google On Air Broadcast where you can watch for free.

https://plus.google.com/events/ci8jms67qttuteegimrf4sj70sk

After the presentation, I will update this page with a link to the YouTube video.

This session will be about 90 minutes, Aaron Buma will present about half and I will present the other half.

If you would like to download the slides and sample TSQL code, you can download them here: Cursors and String Functions.zip
