About Steve Stedman

Steve Stedman Bio

I have been using SQL Server for 25 years, and I have realized that out of all of the jobs that I have had, and the projects that I have worked on, the ones that I enjoy the most include SQL Server and good people.

I am SQL Server Freelance Consultant in the wild, need some help, just ask.

EMT at Sandy Point Fire Department

Current Projects

[Database Corruption Challenge](#).

Creating an [online classroom curriculum](#) for SQL Server professionals.

Always doing SQL Server Performance Tuning.

[The Database Health Reports](#): Database Health Reports program is a powerful performance monitoring and diagnostics solution that
alerts administrators to health, performance or availability problems within their SQL Server environment, all from a central console. [Download](#)it now and enjoy:
