SQL Server 2008 Downloads for the Database Corruption Challenge (DBCC) Week 1

After introducing the Database Corruption Challenge (DBCC) – Week 1 Challenge yesterday, I received several requests for a SQL Server 2008 version of the challenge. Here is is, and for future Database Corruption Challenges, I will include a SQL Server 2008 version of the challenge. The 2008 backup file should restore just fine on SQL 2008, SQL Server 2008R2, SQL Server 2012, and SQL 2014. However if you are using SQL Server 2014 you can download the SQL Server 2014 specific backup file instead.

CorruptionChallenge1_2008.zip

For more details see the Database Corruption Challenge (DBCC) – Week 1 Challenge.
