Now's Your Chance - Course Open For Enrollment

Our SQL Server Backup and Recovery Course is ready for students!

Priced at $99/year or $179/lifetime access (scroll down for sale details)

Our main goal for this course is to determine if you have the right backup and recovery strategy and if you don't, we'll cover topics to get you set up with one and to be confident in the face of disaster (at least as it relates the safety of your database).

Topics covered in this course:

- Recovery times
- Types of backups
- Configuring Backups with maintenance plans
- Restoring from backup
- Considerations for Ransomware
- Building your restore script
- Other backup tools
