A Sneak Peek at the Backup and Recovery Course

"Oh yes of course I have SQL Server backups"

Take another look. Do they fit your needs?

About 40% of new customers we meet do not have adequate backups for their business! That's 1 in 3 companies!

This course helps you determine or learn:

1. What your needs are
2. What type of backup fit your company
3. How often to run backups.
4. How to set up your backups
5. How to check in on them
6. How to restore your backups

And now through September this course is 20% Off!
