Free Aggregating Course for anyone who purchased the backup and recovery course

For those who purchased the backup and recovery course during the first 28 days of November I have a deal for you. Absolutely free, not strings attached is the aggregation course to say thank you for your purchase. If you registered for the backup and recovery course in November, you just need to watch your email and in the next day or two you will receive a coupon code allowing you to get the Aggregation Course for absolutely free.

That means for anyone who purchases the backup and recovery course today, you will also get the aggregation course absolutely free.

Backup and Recovery course

http://SteveStedman.com/backup

This complete course will help you determine if you have a sufficient backup strategy and restore plan OR will help you build one from scratch.

Plan to recover from fires, floods, ransomware, and many other disaster scenarios.

In this course we dive into real life stories, RTO and RPO lesson with examples, what might you need to restore from, types of backups, configuring backups with maintenance plans, restoring from backups, ransomware considerations, building restore script and other backup tools.

Also this promotion still valid until end of day today.

Here is the direct link to the class using the coupon code, valid through November 27. This code gives you 50% off the first year with the annual subscription. At the end of that first year you can either cancel the subscription and continue to use the tracking software, or you can keep the subscription at the standard rate and get updates and enhancements to the track blocking queries scripts.
