Webinar is 7 Days Away - Register Today

If you'd like to:

- Quickly understand the health of your database.
- Get the perfect report for your needs.
- Learn short cuts within Database Health Monitor to save time.
- Locate bottlenecks in your SQL Server.
- Find tables that are using the most disk space in your database.
- Find and fix long running queries.
- Run reports that show the most fragmented indexes for your database.
- And more…..

Then Register for this Training

March 29th at 1:30-2:15pm PST via Zoom

Steve will demonstrate tips, tricks and features of this power house tool.

Each month he will cover a different topic.

And this is your chance to ask any question on your mind (regarding Database Health Monitor).

Can't make it? No Sweat! You'll be emailed the recording but you must register.
