November Promotion at Stedman SQL School

Just 6 days from now our November promotion at Stedman SQL School begins. For the entire month of November, we will be offering some of the biggest discounts on our SQL courses ever. My goal is to offer prices so low that we get more people learning SQL skills via our SQL School.

Upcoming Deals for November

- 40% off SQL Join Types course
- TSQL Output Clause class for $2
- 40% off Learning Common Table Expressions in SQL Server
- Aggregating your data in SQL Server for $3
- 60% off Track Blocking Queries with Email Alerts
- 50% off Getting started with SQL Server
- 30% off Bundle Database Health Monitor + Blocking Query Monitor. 30% off annual subscription going forward.
- 60% off SQL Server Backup and Restore
- 25% Off Track Blocking Queries with Coaching
- 50% off Track Blocking Queries with Email Alerts
- 50% off TSQL JOIN Types class
- 50% off the SQL Server Interview Questions Class
- And much more

Take a look at this short video outlining our monthly promo's.

https://youtu.be/nchtsY92xmk

As always, our ransomware awareness class is always totally free. Doing our part to prevent ransomware.

https://SteveStedman.com/ransomware

It all starts on November 1st.

Course Completion and Monthly Promotions

When you complete all the course material, you will receive an email with a certificate showing you completed the course. You can print that out and put it on your office wall or post it to your social media to show your accomplishment.

Here is a short video outlining our monthly promo's:

Promotion Notes:

- For each promo the promo codes will be available for a week, a day, or possibly just a few hours.
- For any time related events, all times are in US Pacific time zone.
- Any coupons can be claimed by adding the courses to the shopping cart and entering the coupon code at our SQL training school. https://SteveStedman.com/school
